Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Sunday 19 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy with occasionally heavy rain. Drier in west later.

Today:
A generally cloudy and wet morning with rain affecting much of the region. Persistent rain will be heavy at times, but will clear to the east through the afternoon, but with some heavy downpours developing for a time. Maximum temperature 21 deg C (70 deg F).

Tonight:
Any remaining rain clearing then a dry night with long clear spells as cloud breaks. Isolated mist or fog patches are possible in prone locations. Minimum temperature 12 deg C (54 deg F).

Monday:
A dry and bright morning, with any mist or fog patches clearing soon after dawn. Long spells of sunshine across the region from late morning and through the afternoon. Maximum temperature 20 deg C (68 deg F).

Outlook for Tuesday to Thursday:
A dry day on Tuesday, but turning breezy through the day. Windy Wednesday with rain and showers sweeping south. Wet and windy again on Thursday. Temperatures slightly below normal.
